- ✓ Life Skills Training

Providing Compassion and Dignity

Introducing The Cottages at Hickory Crossing: a pioneering initiative addressing the needs of individuals experiencing chronic houselessness in Dallas, TX.

This innovative community offers fifty cozy cottage residences nestled within lush green spaces. They are managed by a 4,000square-foot support-services building. Designed with efficiency and sustainability in mind, this property reflects a thoughtful approach to group living environments.

Our task was to furnish all 50 cottages with durable furniture, ensuring adherence to budget and construction deadlines. Early consultations facilitated spatial layout definition and enabling flexibility in product selection and finishes.

The Cottages at Hickory Crossing stand as a testament to harmonious living and sustainable community development. We take great pride in our commitment to help foster the creation of inclusive and supportive living spaces.
