

BHC ARTWORK SOLUTIONS

Furniture Concepts provides thoughtfully curated artwork solutions designed specifically for behavioral health environments. Our offerings combine calming imagery, safety-focused framing, and durable materials to support healing spaces while meeting the demands of high-use, safety-sensitive settings.

We partner with healthcare designers and facility leaders to create environments that promote comfort, reduce stress, and enhance overall well-being.

Curated Collections & Extensive Image Library

Our program features calming floral, landscape, and waterscape collections, plus access to a library of over 50,000 images — including nature photography, abstract art, regional imagery, and evidence-informed visuals. We help you select artwork that aligns with your facility's goals, patient population, and design vision.

Custom & Client-Provided Artwork

Create a more familiar, personalized environment with your own photography or meaningful imagery. We professionally print and frame customer-provided images such as local scenes, historical photos, donor recognition pieces, and branded visuals to reinforce identity and promote a sense of belonging.

Why Artwork Matters

Thoughtfully selected artwork can reduce anxiety, support emotional regulation, aid wayfinding, and create a more residential, less institutional atmosphere — improving experiences for residents, staff, and visitors alike.

Complete Artwork Solutions

From image selection to framing and installation coordination, Furniture Concepts delivers comprehensive solutions tailored for behavioral health environments.

Guardian Frame

Designed for Safety in Behavioral Health Environments

Guardian Frames are engineered to support safe, therapeutic environments while maintaining a warm, residential aesthetic. Designed for behavioral health settings, they combine ligature resistance, tamper-resistant installation, and unbreakable materials to protect both patients and staff.

Safety First

- Ligature-resistant design reduces anchor points and misuse risks
- Radius edges and compound corners eliminate sharp edges and prevent leverage
- Flush, gapless mounting prevents tampering, pushing, or pulling

Unbreakable & Durable

- Class "A" fire-rated Lexan glazing provides a safe, unbreakable protective barrier
- Impact-resistant construction that is virtually impossible to dismantle when installed properly
- Engineered to withstand significant force — each wall anchor supports up to 75 lbs

Tamper-Resistant Installation

- Professionally installed with multiple secure wall attachment points
- Heavy-duty fasteners concealed beneath tight-fitting, tamper-resistant plugs
- Artwork mounts directly to the wall for maximum stability and misuse prevention

Therapeutic Without Compromise

- Supports calming, evidence-informed imagery
- Helps create a more residential, less institutional environment
- Enables safe artwork display in patient rooms, corridors, and common areas

- Made in the U.S.A.
- Available in custom wood finishes
- Compatible with fabric-covered boards and unbreakable mirror systems

Landscape Collection Sampling

Natural landscapes provide grounding visuals that promote relaxation and a sense of place. These scenes help reduce anxiety and create a connection to the outdoors.

Images shown represent a small sampling — choose from our library of over 50,000 artwork options

Floral Collection Sampling

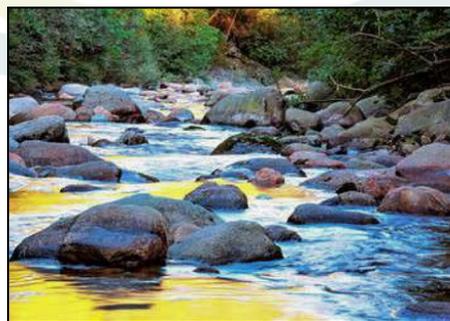

Soft botanical imagery introduces warmth and familiarity while reducing visual stress. Floral artwork supports a welcoming, residential feel that helps individuals feel more at ease.
