- 39 new private rooms
- New dining room completed
- Multiple common spaces renovated
- \$4 million facility renovation
- Cleveland-based partnership

**Investing in Home, Health, and Community: The Gardens of Fairfax Renovation**

Located in Cleveland's historic Fairfax neighborhood, The Gardens of Fairfax Healthcare Center has embarked on a thoughtful transformation focused on enhancing the resident experience. Through extensive renovations that include private resident rooms, refreshed common areas, and a beautifully updated dining space, the facility is creating a more comfortable and home-like environment for those in its care.

Furniture Concepts was honored to partner with The Gardens of Fairfax during this renovation. We were able to provide furniture solutions that support both function and comfort while complementing the facility's new design vision. From resident spaces to community gathering areas, every furnishing selection was made with durability, ease of maintenance, and resident well-being in mind.

What made this project especially meaningful was the shared hometown connection. As a Northeast Ohio company, Furniture Concepts takes great pride in helping organizations throughout our community create spaces where people can thrive. Supporting The Gardens of Fairfax's investment in Cleveland residents was more than a project—it was an opportunity to contribute to a revitalized environment that reflects the care, dignity, and compassion at the heart of the organization.

The result is a refreshed healthcare environment that balances clinical needs with the warmth and comfort of home, helping residents feel supported, and connected every day.
